

PORT OF MUSKEGON

DOCKING FACILITIES

The Port of Muskegon offers docking facilities to accommodate commercial vessels of up to 1000 feet long. The Cruise Ship dock, located at the beautiful Heritage Landing, is designed for smaller vessels (up to 450 passengers). The port welcomes private yachts of all sizes, along with other passenger motor or sailing vessels.

MUSKEGON LAKE

79 feet in depth

12 square miles in size

- Muskegon Lake is the largest deep-water port on eastern Lake Michigan, with year-round access to port facilities.
- Services available include arrangements for fueling, pump out, trash, top-ship repairs, small and large deliveries, etc.
- Passengers and crew have access to special services such as medical, procurement, complementary shuttle service for crew errands, planned or last minute visitor/package arrivals, etc.
- Other services include excursion arrangements, special transportation and a staffed welcome/information tent with friendly customer service.
